COURSE DESCRIPTION
This course is a case based interactive audience response system experience designed to involve participants in all aspects of learning. New this year is a hands on cadaver lab with 8 hours total highlighting latest technology and trends.

COURSE OBJECTIVES
On completion of this course, learners will be able to:
• Discuss emerging techniques in upper and lower extremities and compare to current treatment options
• Apply new concepts for treatment of foot and ankle fractures
• Understand Femoral Neck and Intertrochanteric Fractures
• Evaluate and apply new concepts for treatment in Orthobiologics and Infection

TARGET AUDIENCE
Orthopaedic surgeons and other healthcare professionals whose scope of practice includes orthopaedic trauma.

ACCREDITATION
Foundation for Orthopaedic Research and Education is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians. FORE designates this live activity for a maximum of 22 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

DISABILITIES
Please notify the Continuing Medical Education Office, 4115 W. Spruce Street, Tampa, FL 33607 or call 813-877-8096 a minimum of 10 working days in advance of the event if a reasonable accommodation for a disability is needed. Events, activities, and facilities of Foundation for Orthopaedic Research and Education are available without regard to race, color, sex, national origin, disability, age, or veteran status as provided by the law and in accordance with FORE’s respect for personal dignity.

REFUND POLICY
Cancellation notification must be in writing (email CME@FOREonline.org) and received by the close of business on October 2, 2017. A cancellation fee of $50 will be assessed. Cancellations received after October 2, 2017, will not receive a refund. No-shows will not receive a refund.

FORE reserves the right to cancel this program due to unforeseen circumstances, in which case a full refund of registration fees will be given to participants. FORE will not be responsible for travel expenses incurred by the participant in the unlikely event that the program is cancelled.

FRIDAY, NOVEMBER 10, 2017

Session I: Concepts and New Trends in the Treatment of Foot & Ankle Fractures
Held at the Renaissance Hotel

- Case Presentation #A1: Syndesmotic Injuries
  - When to Fix
  - How to Reduce
- Case Presentation #A2: Syndesmotic Injuries
  - Screws
  - Tightrope
- Syndesmotic Injuries: Pearls of Treatment
- Case Presentation #A3: Posterior Malleolus Fractures
  - When to fix
  - How to Fix
- Case Presentation #A4: Medial and Lateral Malleolus Fractures
  - Lateral Plate
  - Posterior Lateral Plate
  - Medial Malleolus lag screws
- Ankle Fractures: Pearls of Treatment
- Q&A: Ankle Injuries
- Case Presentation #A5: Pilon Fracture Initial Care
  - Ex-Fix
  - Fibular Plating
- Case Presentation #A6: Pilon Fracture Approaches
  - How to Plan
  - Where to put plates
  - Incisions
- Pilon Fractures: Pearls of Treatment
- Case Presentation #A7: Calcaneal Fracture
  - Percutaneous
  - Extensile ORIF
- ORIF
- Case Presentation #A8: Lis Franc Fractures/Dislocation
  - ORIF
  - Fusion
- Case Presentation #A9: Talus Fractures
  - When to fix
  - Screws and/or plates
- Hindfoot and Midfoot Pearls of Treatment
- Q&A: Hindfoot and Midfoot Injuries

Session II: Fractures About the Knee & Leg - Held at the Renaissance Hotel

- Case Presentation #B1: Distal Femur Fractures
  - Plating
  - Periprosthetic Fx's
  - Nailing
- Case Presentation #B2: Lateral Tibial Plateau Fractures
  - Meniscal Injuries
  - Technical Pearls
  - Void Filling
- Case Presentation #B3: Bicondylar Tibial Plateau Fractures
  - One vs two plates
  - Fracture dislocation patterns
- Distal Femur and Proximal Tibia Pearls of Treatment
- Case Presentation #B4: Shaft Fractures of the Tibia
  - Starting point
  - Percutaneous reduction
  - Reduction plates
- Case Presentation #B5: Patella Fractures and extensor mechanism injuries
  - Tension Band
  - Suture Repair
  - ORIF
- Case Presentation #B5: Compartment Syndrome
  - Diagnosis
  - Treatment
- Pearls of Treatment: Tibia and Extensor Mechanism Injuries and Compartment Syndrome
- Q&A: Femur, Tibia and Extensor Mechanism Injuries and Compartment Syndrome

Session III: Cadaveric Session - Held at FIVE Labs
**SATURDAY, NOVEMBER 11, 2017**

**Session IV: Orthobiologics and Infection - Held at the Renaissance Hotel**
- Case Presentation #C1: Nonunion
  - Work up for nonunion
  - Workup for infected nonunion
- Case Presentation #C2: Bone Defects
  - ICBG
  - RIA Grafting
  - The Masquelet Technique
- Case Presentation #C3: Nonunion
  - BMA
  - BMP’s
  - Alternatives to autologous bone graft
- Pearls of Treatment: Nonunions
- Q&A: Nonunions

**Session V: Problems About the Shoulder - Held at the Renaissance Hotel**
- Proximal Humerus Fractures
- Case Controversies and Q&A: Proximal Humerus Fracture
- Clavicle Fractures
- Case Controversies and Q&A: Clavicle Fractures
- Q&A with Discussion

**Session VI: Fractures About the Elbow - Held at the Renaissance Hotel**
- Distal Humerus Fracture
- Case Controversies and Q&A: Distal Humerus and Elbow Fractures
- Terrible Triad: Tricks for Dealing with the Unstable Elbow
- Case Controversies and Q&A: Elbow fractures and dislocation
- Distal Radius Fractures
- Case Controversies and Q&A: Distal Radius Fracture
- Q&A Discussion

**Session VII: Cadaveric Labs - Held at FIVE Labs**

**SUNDAY, NOVEMBER 12, 2017**

**Session VIII: Hip and Femoral Shaft Fractures - Held at the Renaissance Hotel**
- Case Presentation #F1: Femoral Neck Fractures
  - Screws
  - Hemi
  - Total
- Case Presentation #F2: Intertrochanteric Fractures:
  - DHS
  - IM Nail: Long vs Short
- Case Presentation #F3: The Reverse Obliquity Fracture
  - ORIF
  - IM Nailing
- Treatment Pearls: Hip Fractures
- Q&A: Hip Fractures
- Case Presentation #F4: Femoral Shaft Fractures
  - Starting Points
  - Reduction Tips
- Case Presentation #F5: Periprosthetic Fractures
  - ORIF
  - Revision
  - Grafts
- Case Presentation #F6: Bisphosphonate Related Femur Fractures
  - Acute management
  - Nonunions
  - Prophylactic Nailing
  - Medical management
- Treatment Pearls: Femoral Shaft, Periprosthetic and Atypical Fractures
- Q&A: Femoral Shaft, Periprosthetic and Atypical Fractures
Treasure awaits in Tampa Bay! Once the world's Cigar Capital, Tampa Bay is a vibrant region that takes pride in its rich, cultural heritage. Visitors can experience delicious culinary cuisine, serene river excursions, thrilling attractions and exceptional shopping.
