ORTHOPAEDIC RESEARCH DAY

JUNE 14, 2019

FROM THE PROGRAM MANAGER

Dear Prospective Course Supporter,

On behalf of the Foundation for Orthopaedic Research & Education and Course Director, Mark A. Frankle, MD, we invite your company to exhibit at Orthopaedic Research Day, which will take place June 14, 2019 at FIVE Labs in Tampa, Florida.

Orthopaedic Research Day highlights the importance of orthopaedic research and the current areas of investigation within the subspecialties of orthopaedics. This course encompasses a day of judged oral presentations by the Florida Orthopaedic Institute Fellows and USF Residents. The conference is designed to allow young investigators the experience of presenting their own research work to their peers and to attending surgeons in a professional and supportive environment.

The attached prospectus offers a wide variety of support packages designed to encourage opportunities to communicate your message to an eager and engaged audience. Supporting the course will allow you to provide orthopaedic surgeons with information and education about your products, while demonstrating both your support for the orthopaedic community and your commitment to educating healthcare professionals about orthopaedic ailments. For support & sponsorship opportunities, please contact sponsorship@foreonline.org

For additional information on the course, please visit the course website: <https://foreonline.org/event/orthopaedic-research-day/>. We look forward to seeing you in Tampa!

Sincerely,

Bridget Ostrowski
